## RAPID, NO SMEAR ALCOHOL WIPES

### Wide range

Alcohol wipes available for all your needs. Single sachets are ideal for use as pre-injection swabs and large wipes for surfaces of non-invasive medical devices.

### Kills 99.999% of germs

Includes MRSA, *E. coli*, *Pseudomonas* and *Enterococcus* according to EN1276, EN13727 and EN14561.

### No smear

The pharmaceutical grade isopropyl alcohol evaporates quickly leaving no residue or smear making it perfect for surfaces such as glass, stainless steel and monitor screens. Some competitors use low grade alcohol with impurities which can smear and leave residue.

# ALCOHOL WIPES

T: 020 7993 0030

E: info@clinell.com

Ultra quick drying disinfection wipes which leave no smear for surface disinfection of non-invasive medical devices.

## ALCOHOL WIPES

Clinell Alcohol Wipes are high quality durable wipes saturated with the highest quality pharmaceutical grade 70% isopropyl alcohol. Competitors often use low grade alcohol containing impurities, which can smear and leave residue. Our wipes act as a rapid, no-smear disinfectant for surfaces and equipment, with a proven bactericidal action.

## SUPERIOR QUALITY

Our flow wrap wipes contain 25gsm non woven spun bond, which is wetter and thicker than competing alcohol wipes, meaning you can disinfect larger areas with fewer wipes, saving time and money.

## SINGLE SACHETS

Individually wrapped 40gsm sterile sachets made for use as pre-injection swabs or to rapidly disinfect the surfaces of non-invasive medical equipment. Provided in a convenient box of 100 sachets.

## UNIQUE PACKAGING

Brings alcohol wipe packaging into the 21st century - wipes are dispensed one at a time, so the top of the next wipe is not dry which commonly occurs with tub dispensers. This eliminates the infection control risk of dry contaminated wipes. They are also environmentally friendly as there is much less packaging to dispose of compared to standard alcohol tubs.

### IDEAL FOR USE ON THE FOLLOWING SURFACES AND EQUIPMENT

- Door handles
- Bed frames
- Trolleys
- Walking frames
- Wheelchairs
- Radiology equipment
- Monitors
- Blood pressure machines & cuffs
- Thermometers
- Keyboards & accessories
- Telephones
- Stethoscopes
- ECG machines
- Ultrasound probes
- Doppler probes
- Pulse oximeter probes

Kills at least **99.999%** of germs.
